EDUCATION

SREE CHITRA THIRUNAL COLLEGE OF ENGINEERING | *B-Tech (Mechanical Automobile Engineering*   **2022**

EXPERIENCE

Avodha   **Mar 2023 – Aug 2023**
Mern Stack Trainer   **Trivandrum, Kerala**

- Mentored participants through hands-on exercises, providing guidance and feedback to reinforce their learning and problem-solving skills.
- Conducted comprehensive Full stack training programs for various audiences, gaining in-depth knowledge of the technologies and best practices.

Brototype   **Trivandrum, Kerala**
Intern   **Aug 2022 - Mar 2023**

- During my internship at Brototype, I taught myself multiple programming languages and technologies, demonstrating my ability to learn and adapt to new challenges independently.
- Weekly code reviews and feedback sessions significantly strengthened my technical skills, allowing me to develop a strong understanding of best practices and gain valuable experience working with a team.

SKILLS

Programming Languages JavaScript (ES6+), HTML5, CSS3

Front end React.js, Redux, HTML, CSS, Bootstrap, Tailwind-css

Back end Node.js, Express.js, MongoDB, Mongoose

Tools and Technologies Git, npm, RESTful APIs, JSON Web Tokens (JWT), Webpack, Babel

Database MongoDB

APIs-Integrated TMDB, OpenAI, Razorpay, Fast2sms

Deployment AWS, Netlify, Firebase, GitHub

Other Agile Methodologies, Responsive Web Design

PROJECTS

Netflix-GPT | *GitHub Link* | *Web Link*   **2024**

- Developed a responsive Movie Streaming web app using React and Firebase.
- Implemented user authentication for a personalized experience.
- Integrated TMDB API for real-time movie data.
- Utilized Redux for efficient state management.
- Incorporated OpenAI API for movie search suggestions.
- Deployed the app globally using Firebase Hosting.
- Demonstrated proficiency in JavaScript, React, Firebase, Redux, and API integration.

Social Media | *GitHub Link*   **2023**

- Architected a scalable MERN app with MongoDB, React, and Node.js, optimizing performance and scalability.
- Implemented user authentication and dynamic theming (light/dark mode), enhancing user experience and engagement.
- Integrated social functionalities like post creation, liking, and friend addition, fostering community interaction.
- Utilized MongoDB for efficient data storage and management, ensuring reliability and flexibility.
- Leveraged React.js for responsive UI/UX and Node.js/Express.js for backend logic and API integrations.

CERTIFICATION

2023 Front-end development libraries by Free code camp.

2024 Namaste React.
